

Victorian Liquid Fertiliser Forum February 2012

Victorian Liquid Fertiliser Forum February 2012

The 2012 Victorian Liquid Fertiliser Forum will be held on the 2nd February 2012, at Wimmera Events Centre (Wimmera Field Days venue) Field Days Rd, Longerenong, via Horsham, Victoria.

The Forum is an education resource connecting research, on farm application, and knowledge of crop nutrition and Liquid Fertiliser.

Prof. Ismail Cakmak, Sabanci University, Istanbul, Turkey world renowned agricultural scientist and zinc project leader Harvest Plus, will open the Forum with a keynote presentation. Ismail will discuss the topics which include Nitrogen Zinc interactions; Zinc and human health; Zinc and human health; Zinc and protein interactions as well as the Harvest Plus/Harvest Zinc projects. Click on this link for more information on [Ismail Cakmak](#).

Participants will hear from leading researchers into crop nutrition. Included are presentations on the roles and functions of critical crop nutrients; a 10 year grower case study and options for sulphur management using liquids.

Significant information will be provided through the Forum to allow growers to consider using or conducting on-farm trials to evaluate liquid fertilisers for their farming operation.

A trade show is incorporated into the Forum, tailored to provide specific information farmers require on liquid fertiliser products, application equipment and advice.

For further information on the Forum contact Owen McCarron 0419006100.

Victorian Liquid Fertiliser Forum

Location: Wimmera Events Centre (Wimmera Field Days venue) Field Days Rd, Longerenong, via Horsham, Victoria

Registration: 9.00AM

Finish: 3.30PM

Cost: \$135 inc GST

\$99 inc GST - VNTFA Member

Registrations received prior to 13th January will receive a \$15 discount.

Key instructors

- Keynote address Prof. Ismail Cakmak University and Harvest Plus
- Robin Graham Ph D Flinders University – Trace elements and disease management
- Robert Edis Ph D, Melbourne University – Sulphur management – liquid options
- Owen McCarron conNEXUS global – an analysis of liquid fertilisers in Australia
- Andrew Longmire farmer Salmon Gums WA – 10 year case study of using Liquid Phosphorus - TBC
